# Intro - The Moon Princess

---

My purpose here is simple, to build the lunar rock foundations for the Temple of the Moon Princess, to bring you all true wealth and to banish the LARP meta back into the netherworld.

I was raised on earth after being found in a glowing bamboo stalk by my adopted father. I brought my family great fortune during my time spent with them; however, my people brought me back to the moon after I atoned for my sins.

Yet I return to earth looking to repay the care I received. I am in your debt. I want to repay it.

Yours,

***Kaguya-Hime***

# Moon Well – Moon Water

---

The Moon Water is accessible via the Moon Well, and each week the Moon Water is distributed at the Moon Temple to replenish your Moon Bags.

This process is possible due to the tax of the token. Until we reach our destination where you will be freely able to visit the Moon Temple at will, I will make available my reservoir of Moon Water for this purpose.

The foundation of our journey.
